STOCKS FELL IN VALUE

Many Discouraging Features on the Exchange.

PUBLIC HOLDING ALOOF

Money Situation Has Improved so Much That it Ceased to Be Important Factor, but Despite This Prices Developed.

(By Associated Press.)

NEW YORK, April 7.—The weakness which developed in to-day's stock market bore witness to the disappointment felt in speculative dreles at the failure of what are considered favorable developments in the situation to awaken any sign of interest in speculation on the part of the outside public. Call money was not higher than six per cent at any time to-day and fell lower than that on enlarged offerings by the banks. There was some lending on call also by stock commission houses, which have supplied their expected needs with time loans and have money on their hands now owing to the pactical stagnation of the commission business in stocks at present. The immediate money situation causes to be a factor in the stock market.

ceases to be a factor in the stock market.

The indefinite postponoment of the Southern Pacific annual meeting was viewed in a more encouraged spirit this morning, owing to its insurance of the indefinite prolongation of the present cohirol of that property, but renewed unceasiness was fait over the position of the speculative pool in Southern Pacific stock. The extension of the pool carries it only to April 10th and the suggestive weakness of the stock to-day had a weakening sympathetic effect on the maret.

There was heavy selling at other points

weakness of the store to the maret.

There was heavy selling at other points
in the list attributed to the same source.
This development put an end quickly
to an upward movement during the first
hour, led by New York Central, which
seemed designed as a buil demonstration, with the purpose of attracting the
expected outside interest. When this denonstration was seen to fall of its speclative interest became quite stagnant.
Reports of strikes at some of the colleries in the anthracite region owing
to disputed interpretation of the Strike
Commission's award had a depressing
affect on the coalers. The sharp decilines
in the United States Steel securities coming at the same time with a meeting
of the France Committee of the corporation had a decidedly unfavorable effect.
Both stocks fell over a point and the
new 5 per cent, bonds sold on the curb
at \$1-2.

A feature of the day was the wide de-

new 5 per cent bonds sold on the curb at \$4 1-2.

A feature of the day was the wide declines amongst dormant stocks made necessary before a sale could be affected. Lackawanna was sold down 9 points after a preliminary rise of a point. Lake Eric and Western preferred and Cleveland, Lorain and Wheeling preferred each dropped five points on single sales, Westinghouse Electric 4, Virginia-Carolina Chemical preferred 2 1-4 and New York Dock preferred 2 1-2. The expected judicial discussion in connection with the points left uncovered by the decision in the Southern Pacific Injunction case and the possibilities lying in the Northern Securities decision were believed to have a good deal to 40 with the weak undertone of the market.

Bonds were dull and irregular. Total sales, par value, \$1,750.

United States 2's coupon advanced 1-4 per cent. and the 3's declined 1-2 per cent. on the last call.

Total sales of stocks were 444,000 shares.

MONEY AND EXCHANGE—CLOSE.

Money on call, firmer at 4 1-265 per cent.;
closing, 666; time money, nominal; skry
days, 565; 1-2 per cent.; ninety days,

weak, with actual business in bankers'
bills at \$4,95,9074.85,56 for demand and at
\$4.83,569.83,75 for sixty day bills; posted
ates, \$4.84; 1-2, and \$4.87; 1-264.85; commercial bills, \$4.82; 3-464.83; 3-4; bar silver,
49 1-8; Mexican dollars, \$3:1-2; government
bonds, firmer; railroad bonds, irregular.

EDITORS' VIEWS

What the New York Afternoon Papers

What the New York Afternoon Papers
Say About Yesterday's Trading.

(Special to The Times-Dispatch.)
NEW YORK, April 7.—The Evening Suneays: It was a matter of general comment to-day that while the stock market was deckledly weak in particular quarters the pressure was by no means general, and the more aggressive selling of stocks seemed to be pialnly designed for the purpose of forcing general liquidation. While Accilnes were common in practically every huarter of the market, it was neverthees true that a large number of stocks showed an excellent degree of support. Those securities in which the pressure of selling was most prominent were Southern Pacific, Rock Island, Amalgaof selling was most prominent were southern Profile, Rock Island, Amaigamated Copper, Baltimore and Ohio and the United States Steel shares. The dealings were largely for professional account, however, commission houses porting little activity on the part of their customers in one direction or other. In such a professional market, and in the absence of real news of any great importance, the day's discussion and the comments upon particular movements had, naturally, a professional and technical character.

The Evening Post says: Such depression as was witnessed on the Stock Exchange to-day occurred without provo-

WALL STREET GOSSIP

Southern Pacific and Steel Under Pressure-Good Buying of N. and W.

sure—Good Buying of N. and W.

(Special to The Tines-Dispatch.)

NEW-YORK, April 7.—The stock market opened stoady to /firm with rather clear evidence that the traders had not made up their minds as to what the market should do, now that the Souther-Pacific matter was not one of immediate importance. The orders from the outside were trilling, and there was no particular foreign trading. Rock Island acted as if Cheago people were behind it. Union Pacific showed considerable strength, and specialists say the Harriman interests accumulated the stock freely in the recent depression.

SOUTHERN PACIFIC:

BOUTHERN PACIFIC: SOUTHERN PACIFIC:
Southern Facilite was rather heavy, as it was argued that the dissolution of the pool on Friday would influence the stock materially in some way when the market opened on Monday morning. There is some reason to think, however, that the members of the pool would not sacrifice their holdings at present prices, while the Harriman interests consider the stock cheap.

THE TRACTIONS:

Brooklyn Rapid Transit was dull but firm, and seemed to be laboring under the usual difficulty of a strong bull pool unable to attract an effective public literest. The talk on the effect of mey cars available for summer business was bullish.

EARLY MARKET WAS DULL:

The market in spite of its early strength became extremely dull in the first hour, and the reaction in Southern Pacific out the uncertainty of the pool operation had more effect than it was entitled to have. The Waldorf crowd was talking a little beatish on the theory that the market would not really with any spirit and hag so far merely shown activity on decline.

MEXICAN NATIONAL: MEXICAN NATIONALS

J. J. Manning was the principal early
buyer of Mexican National. He has not
infrequently represented the Speyers, who
reorganized the property, and consequent
by the room considered the buying good.
A gold bels for Mexico was not really a
factor of importance, but the prices are
lower than at the reorganization.

ern Pacific, and one or two early bull tips went wrong.

BOCK ISLAND PRESSURE: The Keene brokers were rather heavy spleirs of stock during the morning. The tressure in Rock Island from Street & Norton, amounted in all to some 10,000 santres, was perhaps noticeable in this connection.

L. Wormser, who had sold Sugar on thep revious day, attempted to rally it with indifferent success.

POOL LIQUIDATING:
The room story was that prominent members of the Southern Pacific pool were liquidating and that the Harriman interests were taking the stock as it can out. It was a floor story and is given for what it is worth.

BULL TIP ON LEATHER: The built pon Leather was given out early and was backed up by the buying of the common by C. Knoblauch and the preferred by T. C. Buck. It looked as it scattering long stock was coming out on the advance.

EARLY AFTERNOON DECLINE: EARLY AFTERNOON DECLINE:
Whether the decline in the early afternoo awas on an organized raid on the
Southern Pacific pool or not, the market
was decidedly weak and there was obvious
liquidation in places. There was, of
course, pienty of bear news, most of it
of a rather vague character, but the liquidation in such stocks as Steel common
had a distinctly unfavorable effect that
it was felt that public holdings were
coming to market.

THE COALEIS:

THE COALERS:

AMALGAMATED COPPER:

The selling in Amalgamated Copper looked better than the buying. The Standard Off interest was not extending much encouragement to buils of the stock, although they saw nothing unfavorable in the Copper situation. People who bought on the rumored settlement of the copper war, were probably throwing over stock.

THE CLOSE:
The close was relieved to a very moderate extent by the covering of professional shorts, but upon the whole the feeling was depressed in view of the evidence of liquidation in places. The professional element was bearish.

COTTON MATKETS.

NEW YORK, April 7.—The cotton market opened firm at an advance of 167 points, and immediately following the call displayed quie the activity with May selling up 16.0 and July to 9.98 and belief up 16.0 and July horts, but the shorts were about the only buyers, and while the Liverpool market made a fair response to the New York advance of Monday, port receipts were heavy and the market, after a brief interval of Irregularity turned decidedly weak under liquidation. During the balance of the session prices displayed an almost uninterrupted downward tendency, though toward the lowest of 8 points in May and about 2 points on the list generally as a result of further covering, with the market finally barely steady at a net decline of 6 points to an advance of 1 point. Total sales futures estimated at 200,000 balos. A factor in the declining tendency was the talk of shipments to be made to this point for delivery on May contracts, and it was claimed that the high level atlained by values in the local market permit of the better grades being shipped here from Liverpool. It was said that apout for shipment to New York for delivery should the bull clique call for actual delivery on May holdings, and this naturally encouraged room shorts to maintain their position, while it also brought about renewed sales by commission houses who took profits for the long account, and the bull pool was also credited with selling May.

Cotton futures opened firm and closed barely steady.

Cotton futures opened firm and closed barely steady. barely steady.

Cotton, dull; middling, 10.45; net receipts, 37 bales; gross, 6.385 bales; stock, 62.488.

Total to-day at all scaports—Net receipts, 18.714 bales; export to Great Britain, 9.201 bales; to France, 530 bales; to the Continent, 2.170 bales; stock, 35,950 bales.

Consolidated at all scaports—Net receipts, 38,400 bales; export to Great Britain, 32.702 bales; to prance, 2,650 bales; to the Continent, 31,253 bales.

Total since September 18t at all scaports—Net receipts, 7.71,342 bales; export to Great Britain, 2.53,265 bales; to France, 75,104 bales; to the Continent, 2,628,873 bales.

A gold beis for Mexico was not really a factor of importance, but the prices are lower than at the reorganization.

NORFOLK BUYING GOOD:

The buying in Norfolk and Western was considered good and reflected the Philadelphia opinion of the profits in the advance of rates for carrying coal. The large earnings also helped the rise.

BISINESS FFILL OFF:

The volume of business fell off about the whole prices did not retain their early rallies very well. It was said that there was some significant liquidation in South.

of 2 points, May, June and July 5 and August 2, while the more distant months lost 1 point each compared with yester-day's closing. TOBACCO MARKET.

Richmond, Va., April 7, 1903.

The condition of the tobacco market during the week ending April 3d closed yery firm, and we can report prices on all grades in seed of the prices on all grades in seed of the week very active and has kept up about ton figures and produce quotations. There were some good tobaccos for to-day's sales (Priday) and several lots sold for an error of the prices, ranking from 15 to 23,50 per hundred—the highest price of the season for sun-cured tobacco.

The market has taken on renowed activity and strength, and indications point toward higher prices for good tobacco.

Dark atemming tobaccos have also advanced in prices and are selling above the usual quotations. We anticipate a market above the average for the coming week.

Total amount sold for the week at the four warehouses, 138,181 pounds. Total amount to date, 8,737,727 pounds.

NEW HIGH RECORD

NEW YORK, April 7.—The dry goods market has been uneventful and unaffected by any reports of export business at lower figure than the generally quoted prices. With raw cotton flaures maintained at a high level there seems to be little opportunity for the market to weaken. Rise in Cotton Continues and Reached

10:40 for May Delivery.
(By Associated Press.)
NDW YORK, April 7.—The rise in cotton, which began almost five months ago, was continued to-day when May touched 10.40, July 9.90, new high records for the present movement. The market open-ed active and strong all around, but the SAYANNAH, GA., April 7.—TURPENTIND—Quiet at Sic.; receipts, 450 casks;
